### **Mini Projects**

- **Calculator Application:** A robust calculator with both basic and scientific operations.
- **Music Player:** An interactive music player with playlist and playback features.

---

## **Experience**

Though I have not worked formally in a company or freelancing platform, I have gained significant experience through independent projects, demonstrating the following:

- **Front-End Development:** Designed interactive and responsive user interfaces.
- **Back-End Integration:** Connected front-end applications with robust server-side technologies.
- **Mobile Development:** Created engaging apps for Android using Java and Kotlin.
